## How will TRATON meet the goals?

**Wednesday 15/5**

**16:30-17:30**

### Restaurant Granpark

*Soon after the foundation of TRATON, the Global Champion strategy was set up. One of the goals, to become technically ready for the capital markets, was reached last year. In March, VW decided to postpone the targeted IPO because of the unstable market conditions at that time. It shows very well that roads are sometimes straight, sometimes a bit more bumpy on our way to meet our goals.*

*CEO Andreas Renschler join us to talk about TRATON's strategy, but also about his personal view on getting from A to B.*

*Welcome!*
